Shrewsbury, Massachusetts 01545-5398

### Minutes Board of Sewer Commissioners

Meeting: April 8, 2003

**Present:** Paul Swydan, Secretary  
Paul Burnett  
Robert Tozeski, Superintendent Water & Sewer

**Absent:** Joseph Zecco, Chairman  
Jack Perreault, Town Engineer

The minutes from the meeting of March 11, 2003 were accepted as written.

1. Richard Ricker, Kevin Quinn, Dale and Steve Anderson, all representing the Hickory Hills subdivision, appeared before the Board to discuss related sewer issues. A proposed sewer agreement with the Town was discussed in detail. In the agreement, the developer agreed to comply with the Water Conservation Policy of \$1,000 for each residential home built, no connections for automatic yard irrigation systems into the municipal water supply would be allowed, and all of the homes would collect rooftop runoff and recharge the same to dry wells to recharge the ground water supply.

In addition the developer would comply with all the stormwater management and sewer agreement requirements. The agreement would be necessary for approval from the state DEP for their sewer extension permit.

The Board discussed the memorandum of understanding, dated June 21, 1996, between the Town and the Grove Street Sewer Trust of which Dale and Steve Anderson were one of the principals. The agreement dealt with the construction of the Arrowwood Pump station, dual force mains over to the Rolfe Ave Station, odor control system at Rolfe Ave. station and the amount of money paid by each party. The Anderson's contributed \$108,360.00 to the project in return for off-site credit to be applied to future assessments in the Hickory Hills Subdivision. The Board wished to review all documentation regarding this agreement to be sure the credits were still in effect.

2. Francis Zarette appeared before the Board to discuss a proposed sewer extension on Gold St. The extension would be to service three (3) proposed house lots on the southerly side of Gold Street next to the Venincasa residence. Mr. Zarette was advised that he needed to seek permission to enter the private sewer pump station on Farmington Drive from Christopher Christopher. The station has not yet been officially accepted by the Town. A letter from Mr. Christopher was necessary before the sewer extension permit process could be stated.
3. The Board signed various sewer assessments.

The meeting was adjourned at 7:50 p.m.

Respectfully submitted,

Robert Tozeski  
Superintendent Water & Sewer
